

How to Create a Marvelous Movie Using Photostory 3 at TOR

There are three main steps to create movie using Photostory 3.

1. Collect pictures and then save them to your login number. Import these pictures onto Photostory 3.
2. Create titles for each picture.
3. Add the narration to each picture.

Step 1: **Saving Pictures...**

Google.com/images

Type the picture topic you are looking for>**ENTER.**

Choose a picture that you would like.

Now, **RIGHT CLICK ON THE**

PICTURE>**Save Image As**>**This PC**>

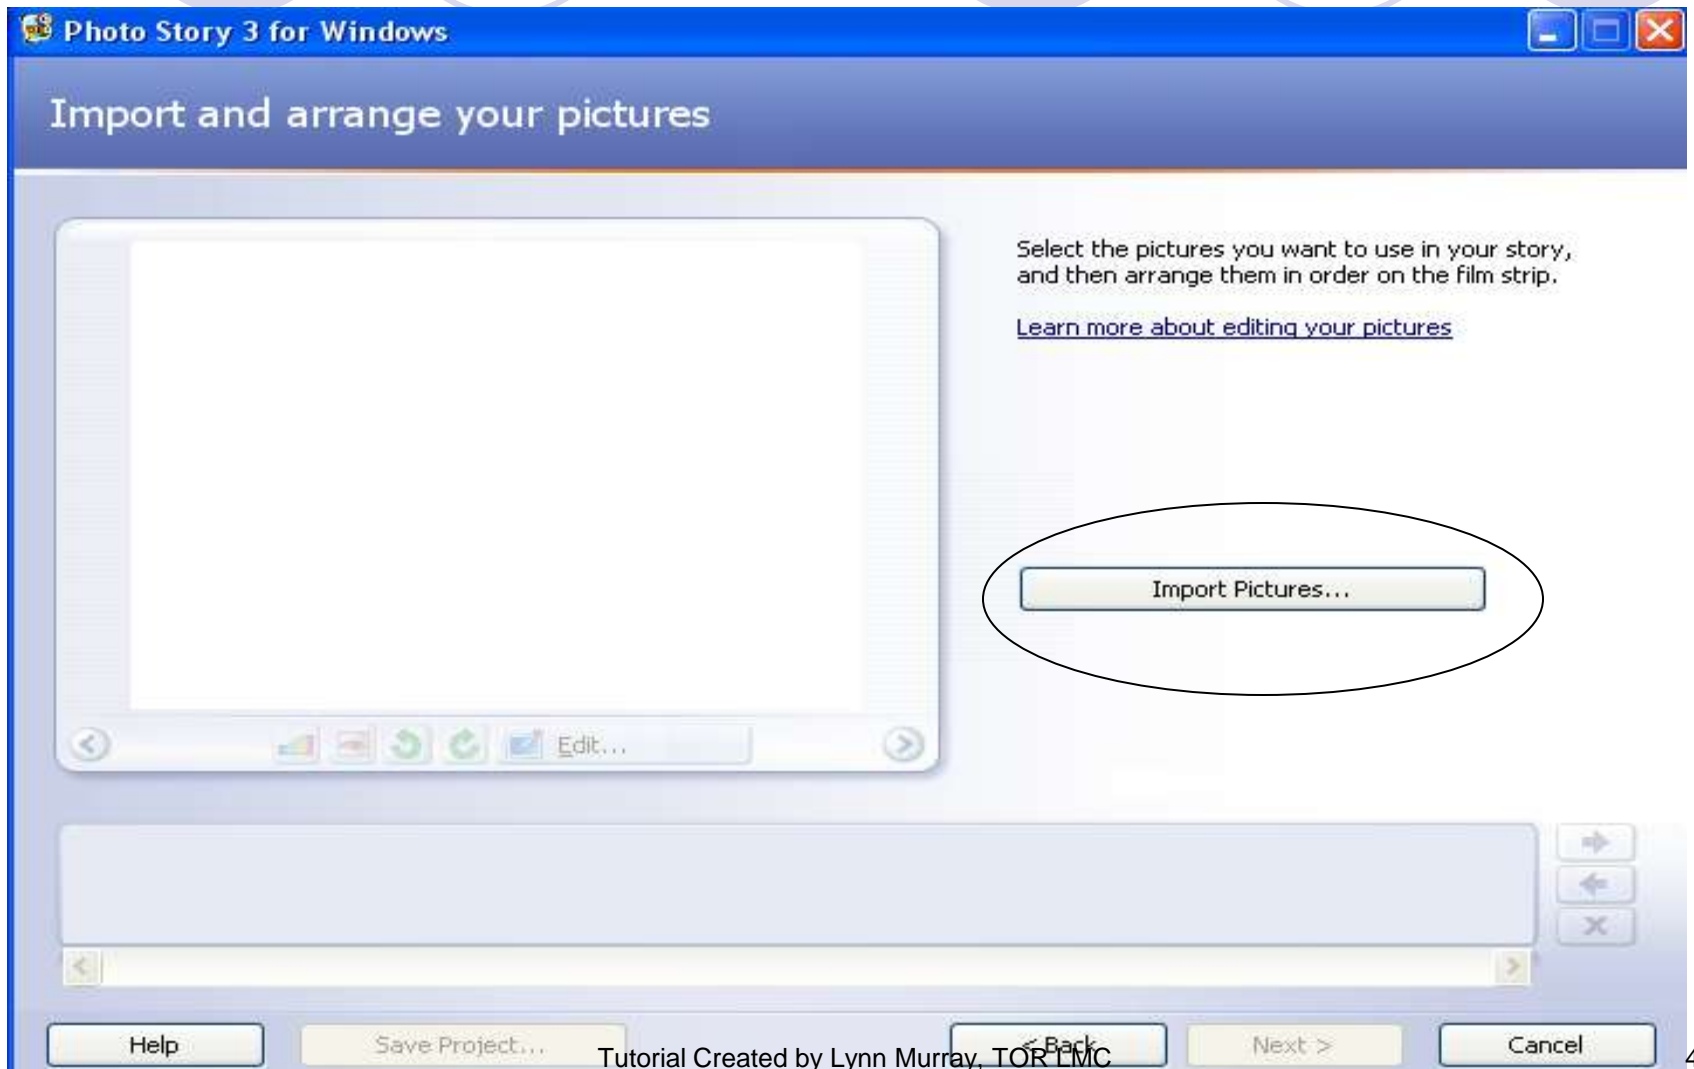

Give the picture a name and **save it**
to your number.

Save at least 10 pictures; these will become the basis of your movie.

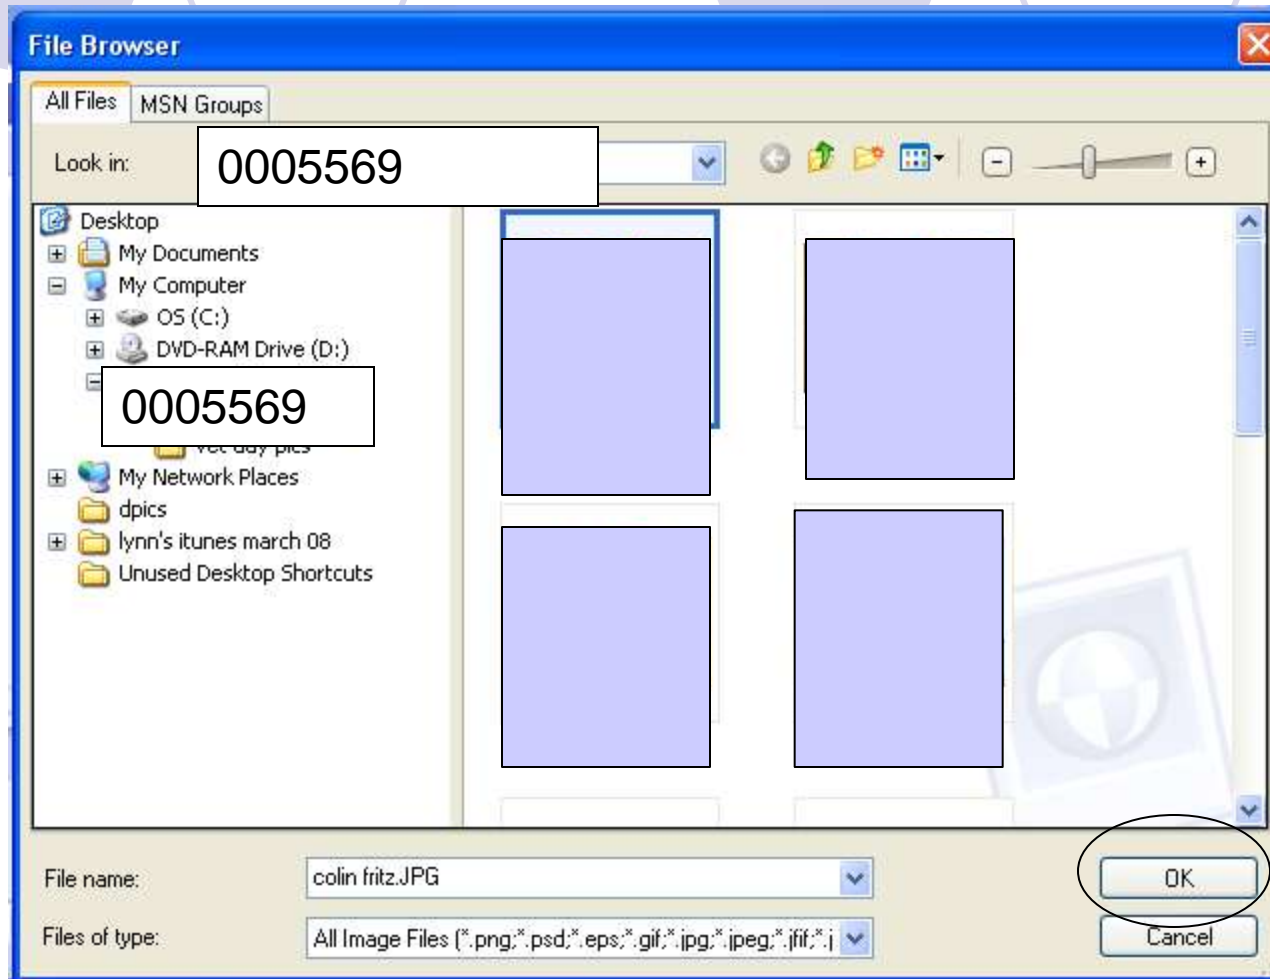

**Open Photostory 3 and split the screen so this PowerPoint is on your left and Photostory 3 is on your right.
(Start>Programs>Photostory 3 for Windows)**

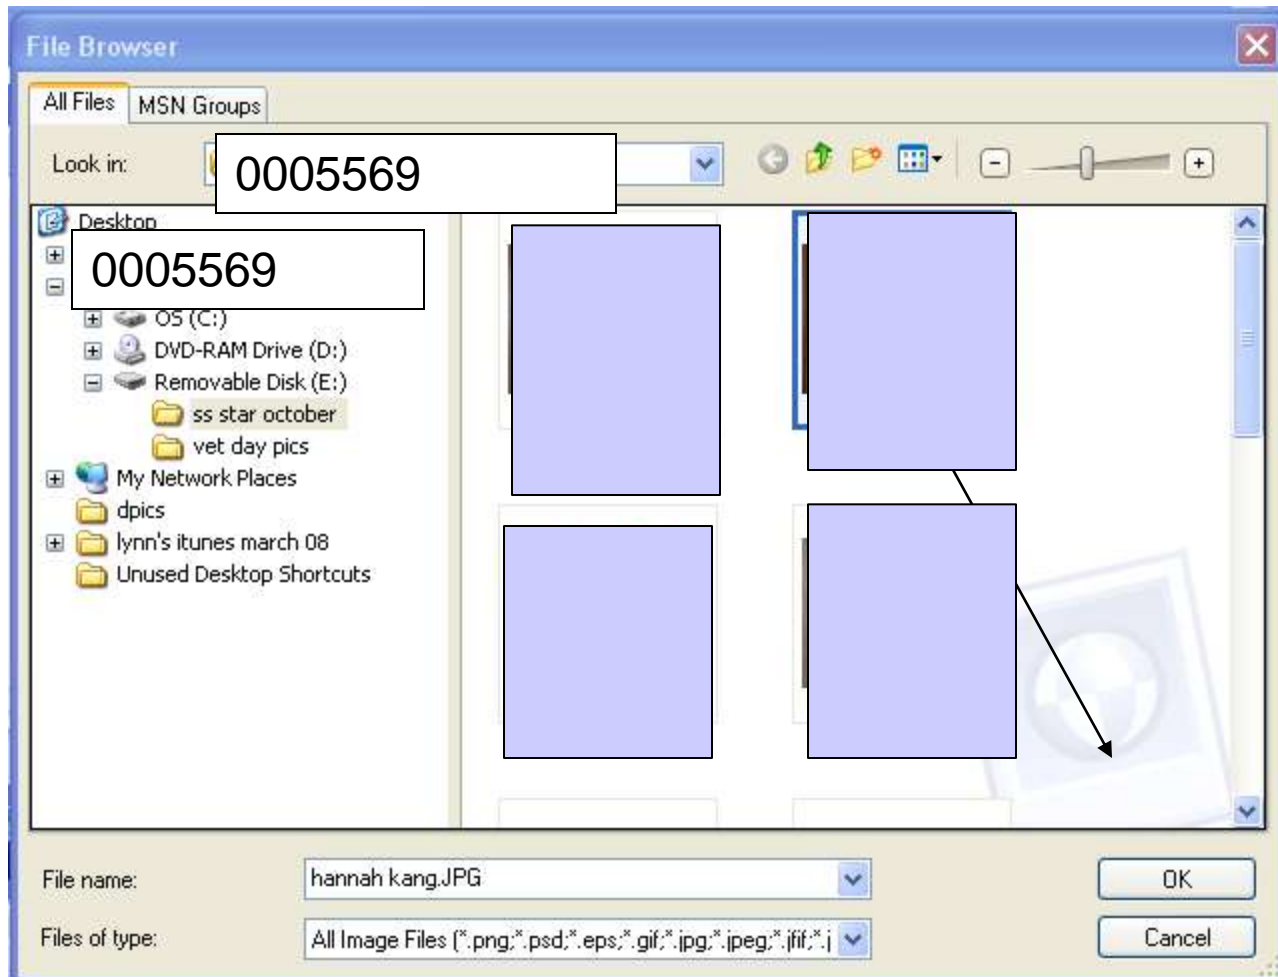

Click on Import Pictures. You want to Import all of your pictures now in the order that you would like them to appear in your movie.

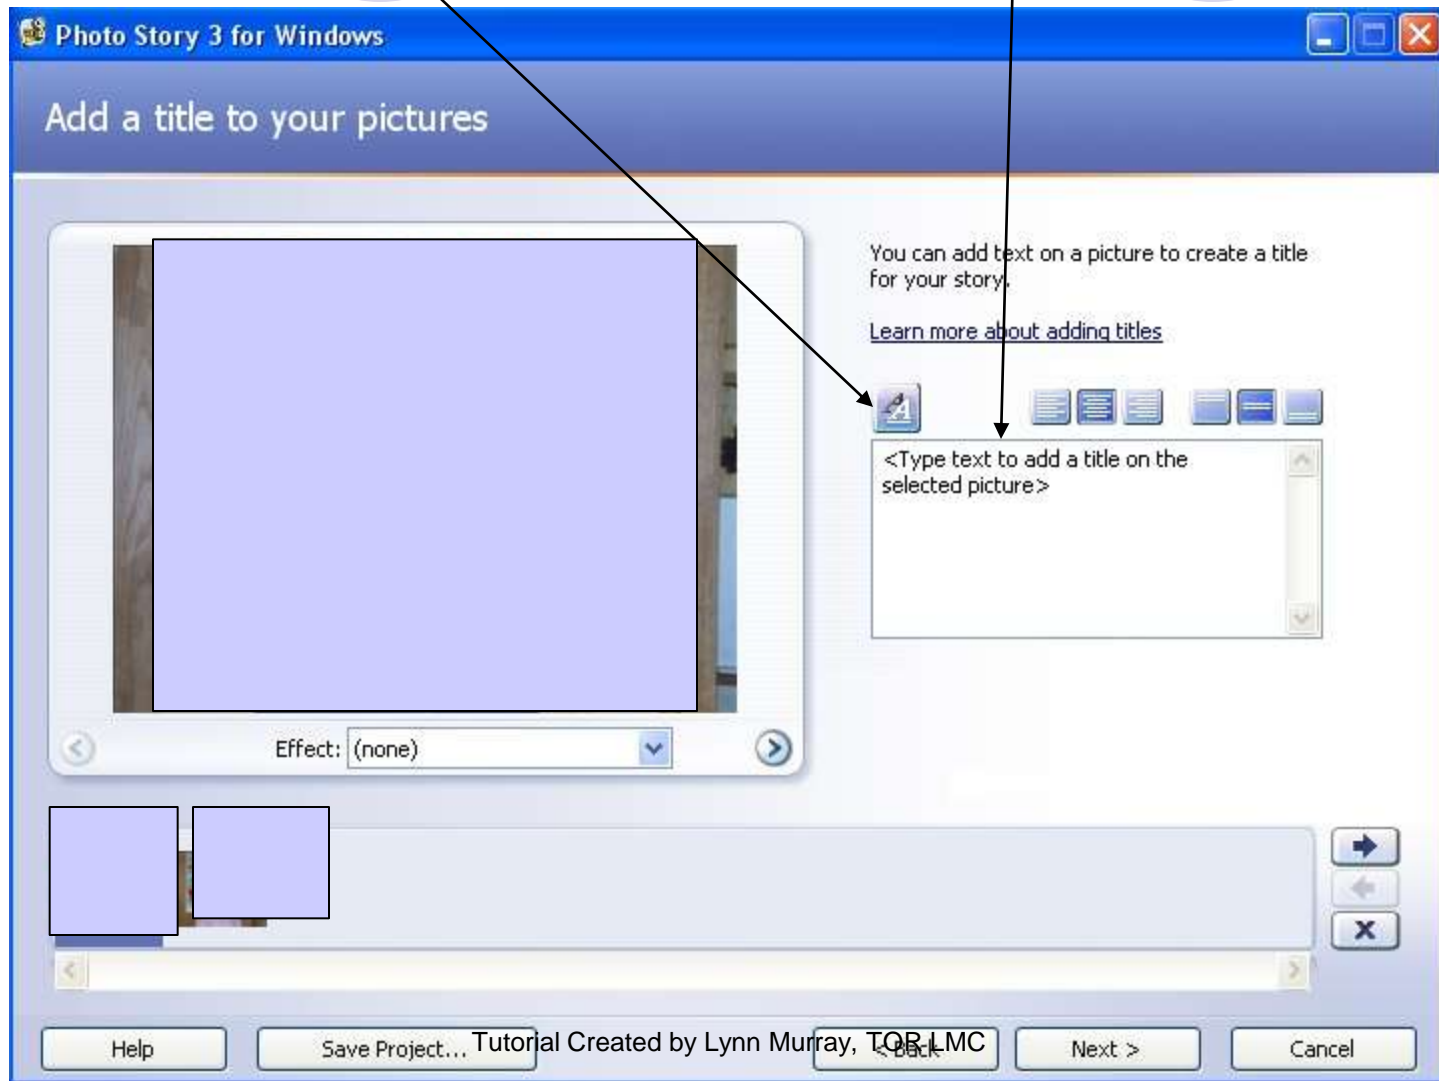

Find pictures that you saved on your student number. Click on the picture and then click on OK.

Click on a second picture. Then click on OK. Continue until all of your pictures are in order. When you finish importing the pictures, click on **NEXT** to **add the titles**.

You will add titles to your pictures now. Type in this box. To change the font, click on the A's. While the text is highlighted, click on these boxes to move it on the screen.

Click on the A's to change the font.

Click here to change the title's position on the page.

The screenshot shows the 'Photo Story 3 for Windows' application window. The title bar reads 'Photo Story 3 for Windows'. Below the title bar, a blue header contains the text 'Add a title to your pictures'. The main area features a large image placeholder with a white text box containing 'Type your information'. To the right, a smaller text box contains 'Type your information about your food h...'. A 'Font' dialog box is open in the foreground, displaying the following settings:

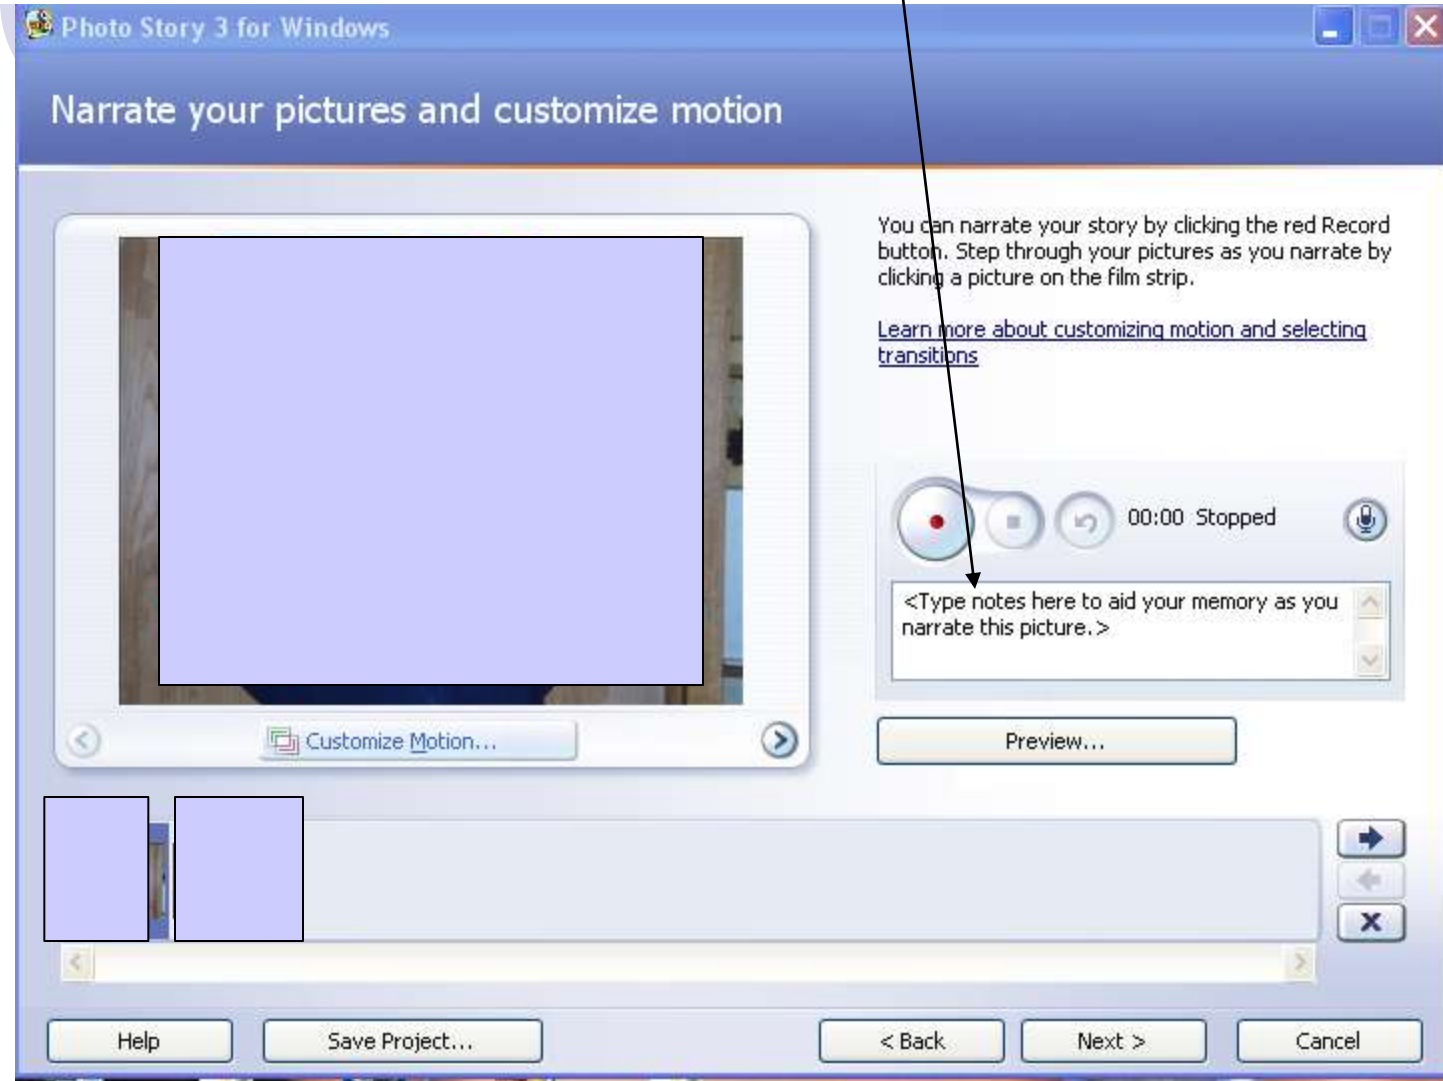

Font:	Font style:	Size:
Microsoft Sans Serif	Regular	16
Microsoft Sans Serif	Regular	16
Mistral	Italic	18
Modern No. 20	Bold	20
Monotype Corsiva	Bold Italic	22
MS Outlook		24
MS Reference Sans S		26
MS Reference Specia		28

The 'Font' dialog box also includes sections for 'Effects' (Strikeout, Underline), 'Color' (Black), 'Sample' (AaBbYyZz), and 'Script' (Western). Buttons for 'OK' and 'Cancel' are visible. In the background, a 'Learn more about adding titles' link is circled, and a 'Next >' button is visible at the bottom right.
